PROFESSIONAL EXPERIENCE

Content Creator at Rareform Audio and Black Sheep Music **Sept 2026 - Oct 2026**

- Executed multimedia content creation, video editing, and comprehensive marketing tasks to support digital campaigns and asset promotion.
- Produced original, copyright-compliant creative assets and deliverables in adherence to strict intellectual property and confidentiality protocols.

Head of Marketing at Vilo Engineering **April 2026 - August 2026**

- Built and run the LinkedIn presence and content program for an NICEIC-accredited electrical compliance company serving landlords, letting agents, and HMO owners, publishing 12 posts, carousels, and articles per month.
- Designed and run cold outreach campaigns to property managers and letting agents, generating 100 replies and 10 qualified leads monthly.
- Translate technical topics (EICR, electrical safety regulations, landlord liability) into plain-language content, growing followers or impressions by 20% in 5 months.
- Work directly with the director and technical team to keep messaging accurate and on-brand.

SEO Specialist (Freelance) **Feb 2026 - March 2026**

- Optimized website content and researched keywords to improve search engine rankings and organic traffic.
- Monitored and adjusted SEO campaigns using technical tools to maximize online engagement.

Marketing Coordinator at Token of Trust **April 2026 - June 2026**

- Created monthly content calendar, newsletter, social media account posts, and blogs that is according to our brand guidelines and the current state laws of states in USA.
- Monitored and adjusted SEO campaigns using technical tools to maximize online engagement.
- Contribute to the marketing and sales strategies and be able to communicate with the dev team on campaigns and improvements that were suggested by existing clients.

Project Supervisor (CCTV Installation) **Jan 2026 - March 2026**

- Supervised the installation of a 100-camera wired IP CCTV system, coordinating the install crew and keeping work on schedule.
- Expanded the facility's existing 36-camera setup by adding 64 new IP cameras and additional NVRs to support full-site coverage.
- Performed preventive maintenance on the original 36 cameras and integrated them into the new 100-camera system.
- Set up 2 additional monitor displays (36-camera output per display) so all 100 feeds could be viewed live across 3 screens.
- Handled cable routing, camera placement, and system testing to confirm every camera was recording and viewable before turnover.

Freelance Software Developer **Aug 2025 - May 2026**

- Solely developed and deployed inventory and tracking systems for the Saint Louis University Bookstore and Electronics Department Laboratory.

QA for Sales and Marketing at Edion Staffing Agency **Jul 2024 - Mar 2025**

- Developed sales scripts and outbound call strategies to increase lead conversions.
- Provided technical expertise in accounting and client management while overseeing company branding.

Technical Lead (Carbon Footprint Tracker Project) **Aug 2024 – May 2025**

- Led a cross-functional team in the end-to-end design and deployment of a full-stack web application for Saint Louis University.
- Managed sprint planning, technical architecture decisions, and translated project requirements into actionable development tasks.

Sales Specialist at IHG **Jan 2023 – Mar 2023**

- Identified prospects and provided tailored solutions to meet sales targets and performance metrics.

Freelance Video Editor **Jan 2020 – Present**

- Creates and develops all aspects of visual design from project inception to implementation on different media.
- Worked closely and collaborated with the writer, producers, and editors.
- Adhere to agreed-upon design delivery schedules coordinated with the Graphic Producer and Client.

PUBLICATION

Role-Playing Video Game: Its Effectiveness in Ideal Gas Law Learning of Junior High School Students

Co-author, preprint, SSRN, 2023

- Co-authored a quantitative study of 255 Grade 10 students comparing a custom educational RPG (built in RPG Maker) against conventional teaching of Boyle's and Charles's laws.
- Developed "Adventures of You," an educational role-playing game built in RPG Maker 2015 that teaches Boyle's and Charles's laws through story-driven problem solving.
- Used a non-randomized pretest-posttest control group design; the game group scored significantly higher ($t = -2.053$, $p = .041$), with 14% reaching Very Satisfactory or better versus 0% in the control group.
- Found no significant difference in performance between male and female students ($p = .586$).
